The penultimate episode of the inaugural season of *Beyond the Bench* is now available! The first half of the episode was produced by Shea, and explores the penalties associated with impaired driving and their effectiveness at addressing the problem. The second half involves me interviewing Jamie about the concept of absconding from probation. We talk about the history of the term and discuss several recent appellate cases about what constitutes absconding. You can listen on the web [here](#), or download the episode from the leading podcast store of your choice. Let us know what you think.
